EMPLOYMENT REFERENCE LETTER
Viridis Ag – Amarinya.

This letter serves as confirmation of the employment of Dominik Paes with Viridis Ag, where he was engaged as a Header Operator and Chaser Bin Operator, performing General Farm Work across multiple harvest seasons at our property located in Jacup, Western Australia, Australia.

Dominik Paes was employed with our business during three consecutive harvest periods, specifically:

- **October 2021 to February 2022**
- **October 2022 to February 2023**
- **October 2023 to February 2024**

Viridis Ag is a broadacre grain farming operation producing Wheat, Barley, and Canola. Throughout his employment, Dominik Paes was a reliable and committed member of our harvest workforce, capable of working both independently and collaboratively within a team-based farming environment.

His responsibilities included operating John Deere harvesters, Chaser bins and supporting harvesting operations to ensure efficient grain handling and logistics during peak harvest periods. In addition, he undertook a range of general farm duties including stubble crunching, slashing, and other machinery operating.

Dominik regularly operated modern agricultural machinery including John Deere tractors and headers equipped with GPS systems, as well as loaders, slashers, and stubble crunchers. He demonstrated strong technical competence, good machinery awareness, and a consistent focus on safe and efficient work practices.

Harvest operations at our farm required long working hours, flexibility, and the ability to perform reliably under time pressure. Dominik Paes consistently met these demands, showing a high level of reliability, availability, and willingness to work extended hours as required. He communicated effectively with other operators and contributed positively to overall team performance.

Based on his performance and work ethic, Dominik Paes has proven experience in broadacre grain farming, modern agricultural machinery operation, and harvest logistics. He was dependable and capable employee. I confidently recommend him for similar roles within the agricultural sector.

James Lyall
Farm Manager
